E. J. CREECH, Surveyor
J. FRANK SAMPLE, Coroner

UNDER the present ad valorem system of taxation in Kentucky the farmer pays 53 per cent of the entire tax, while stocks, bonds and money pay less than 10 per cent. The commission recently appointed to investigate the tax system as employed in other states has discovered that the state of Washington is more nearly equable than any other in the union, and there, unlike Kentucky, there is no such thing as double taxation. In this state if a man owns stock in a corporation in Ohio he must pay taxes in Kentucky while the stocks are taxed in Ohio also. This is burdensome on the investor and frequently leads to perjury in giving in his property to the assessor. Mortgages are taxed while the real estate upon which the mortgage is held is also taxed. It is hoped that the present legislature may suggest amendments to the constitution which will enable that body to pass a revenue law that will be just to all. Experience has proven that where a lower tax rate is in vogue the revenue returned is vastly larger than where the rate is high, and a low rate on bonds, money, etc., prevents perjury or the temptation to perjury or giving in false lists to the assessor.

THERE is crying need of a telephone line between Helechawa and Campton, via Hazel Green. To build and equip the line properly will cost in the neighborhood of \$750, and that sum should be raised very readily. It will require about 400 posts, the wire and at least five boxes. The right of way will be given on much of the line and we believe the figure we have mentioned will do the work. One citizen in our town says he will put in \$100 toward the enterprise, which leaves \$650 to be made up. Now, who will come in and take stock to make up the balance? The old line between these points was a cheaply constructed affair and at no time reliable, but for while it paid a dividend of 22 per cent. With a good line, one that could be depended upon at all times, the line ought to pay 25 per cent, anyhow. As an investment, therefore, it would pay very handsomely to say nothing of the convenience. Let our enterprising citizens think upon it and establish the line at once.

We acknowledge the receipt of a bulletin of Kentucky Department of Education, just issued by State Superintendent Crabbe, prepared by Thos. W. Vinson, first clerk. After a hasty glance thru its pages, we are prepared to say that it is certainly one of the most comprehensive we have ever seen. It gives a list of all the public and private schools, the county boards, county superintendents, graded schools, high schools, number of districts, schools and teachers, school census and school funds. In short, everything pertaining to the school system. It gives a list of all colleges, academies, private schools, etc., not under state control. It also contains the names of every state superintendent in the union, including Hawaii, Porto Rico and Philippines. As before stated it is a comprehensive and concise directory that should be in the hands of all interested in the subject of education.

MANY of our people complain of the dog tax in our state. But the fact is that it is very low as compared with the same tax in other states. In Indiana, for instance, the tax on a male dog is \$2, on a female \$4, and \$4 for each additional dog. Prior to the last legislature in that state it was \$1 on a male dog, \$2 for female, and \$2 for each additional dog. The dog tax there is collected by the assessor when he takes your list.

H. G. A. Notes.

Leonard and Mollie Johnson took dinner with Uncle Chailey Cecil Sunday.

Rollin Combs had the doctor called Sunday. He has a severe case of la grippe.

Harlan Brown, Kelly McGuire and several others have severe cases of cold and la grippe.

Miss Miller gave the boys and girls who eat at her table a social Saturday night. All had a nice time.

Misses King and Hines have not been able to meet their duties for a few days, but are improving at present.

The enrollment is about the same as last week, which is good as there is so much sickness and talk of measles.

The U. D. society delivered their weekly program Monday night. The program was rendered well and all seemed to enjoy it.

Arthur Kash, J. P. Alexander and Hager Hollon left for Campton Thursday where they will take the examination for county diplomas.

Miss Mary Meade came in last Thursday and took charge of the intermediate department. She is certainly a fine teacher. The school is proud of her.

Howard Halsey, John Brewer and Price Hatton spent Saturday and Sunday with homefolks. Price will not return as he will matriculate in the County High School at Campton.

The report has gone out that there is measles in school, but we are glad to correct such a report. There is not and has not been a single case. So those who are contemplating coming need not let that report hinder.

Loving One's Work.

If a man doesn't love his work, he had better get something else to do. But the trouble is that such people will hardly love any kind of work. The trouble is in them. They lack intelligence. If they knew enough to know good work, they would soon learn to love it. The manual training scheme has this in view—to surround the job a man is doing with such intelligence and taste as will make it attractive to him.

"The man who is in love with his job gets more contentment out of life than any other," says Brander Matthews; and he gets a great part of his contentment doing his work right. No man can love his work who shirks. No man can be content who is dishonest about his work. This is shirking or doing negligently. So these things always go together—honest work, contentment and love of the job.—(Ohio State Journal).

A Practical Demonstration.

A rather amusing story is told of a man who went into a hardware store in a neighboring town and wished to purchase an ax. Being shown the article and informed that the price was \$1.15, he said: "Why, I can get that same kind of an ax from a mail order house for 90 cents." "Very well," said the hardware man: "I will give it to you for the same price provided you will do the same with me as you will do with it." "All right," replied the customer, as he handed over a dollar bill, the merchant giving him back 10 cents in change. "Now," said the hardware man, "I want 25 cents more to pay express charges," which the purchaser gave him. "How much did your ax cost you?" "One dollar and fifteen cents," the man answered. "Very good. Now give me 5 cents more for money order fees and postage," which the purchaser had to hand over. "Now how much did your ax cost you?" "One dollar and twenty cents," said the customer. "Not so cheap, after all," said the merchant, whereupon he picked up the ax, tossed it back on the shelf and told the customer to call for it in ten days, as that would be as soon as he could get it if he had ordered from the mail order house.—Exchange.

A New One.

"A western Kentucky exchange says: 'A young man traveling thru the state is representing himself to be in the employ of the government and inspecting rural routes. He represents to the farmers that if they want to have their routes continued it will be necessary for them to sign a petition to that effect, showing them a form he carries. Later this signature to the 'petition' bobs up in the shape of a small check at a local bank. Keep your eye peeled for him.'"

HAZEL GREEN, KY.

Farmers Not Getting Share of Meat Prices.

"We have discovered that the farmer is not getting exorbitant profits out of the beef he raises," said Secretary of Agriculture Wilson in discussing high prices of food supplies.

"I have no doubt," he continued, "that the same conditions will be found to prevail in most other lines of farm products."

"The department of agriculture has agents in every state and every county of the country. They have been ordered to report exhaustively of the cost of production and returns of sales of all sorts of food productions. As fast as we receive these facts we will compare them with the prices the same products bring in the cities where they are consumed. We will then give the facts to the public."

"We intend to bring out the truth, irrespective of whom it hurts or whom it benefits. I am convinced that the public is compelled to pay a great deal more for nearly everything it eats than it should and I believe the figures will bear me out."

"There is ample excuse for some increase in the cost of living over what it was years ago."

"The farm area is not keeping pace with the demand for food stuffs. Cities seem to have more attraction for the laboring man than to the rural communities. The vast horde of immigration, as well as the ever increasing native population, must be fed and the farm is expected to furnish the food."

Just Like Him.

A promising young merchant in a neighboring town presented his better half with a handsome piano lamp as a Yule-tide gift. He was much flattered when she told him to give it his name, until he asked her reasons for so peculiar a proceeding. "Well," said she, "you know, dear, it has a good deal of brass about it, it is handsome to look at, requires a good deal of attention, is remarkably brilliant, is sometimes unsteady on its legs, liable to explode when only half full, flares up occasionally is always out at bedtime, and is bound to smoke."

When the Hair Falls

Stop it! And why not? Falling hair is a disease, a regular disease; and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Does not change the color of the hair.

The little book in each package gives the formula of our new Hair Vigor, tells why each ingredient is used, and explains many other interesting things. After reading you will know why this new hair preparation does its work so well.

THE HERALD.

Clifford Nickell and Roger Bryson were in town Tuesday.

Mrs. Lula Kash was confined to her bed Monday with la grippe.

Burnie Finch on Tuesday moved Kelly Jordan to Johnny Kash's farm, below town.

Mary, the two-year-old daughter of Forest Cecil, is suffering very severely with croup.

J. O. Perkins moved to the Doc Perkins place Monday, where he will make his future home.

Mrs. Ellen Pieratt is still very sick with la grippe at the home of her son, Curtis Pieratt, on Grassy.

Children Cry FOR FLETCHER'S CASTORIA

Capt. Jack Rittenhouse Monday sold a Duroc Jersey sow to R. H. Patton for \$25 and one to Nelsa Nickell.

Mrs. Berry James is spending the week with Mrs. John M. Rose, while Mr. James is on the jury at Campton.

Courtney Barker last week moved to his father's, on Lacy creek, and Tom Taulbee moved to the place he vacated.

Mrs. Ellen Pieratt, who is with her son, Curtis Pieratt, on Grassy, is quite sick and threatened with pneumonia.

Capt. Jack Rittenhouse, who is now making headquarters at Lower Grassy, in Johnson county, was here on a visit this week.

Nelsa Nickell a few days ago traded a pair of aged mules to Charley Rose for a pair three-year-old horse mules, giving \$10 to boot.

Willie Davis, who formerly lived near here, but who has been in Perry for some years, is here looking for a farm with a view to buying.

O. W. Cecil recently sold eight five-month-old pigs for \$84, at 7c a pound. Tuesday he sold one to Sidney Bishop for \$10, four months old.

Boone Bach, who bought a little farm from Sebe Walters about two months ago, on Tuesday gave Mr. Walters \$17 to rue the bargain and moved back to Johnson fork.

Bill O'Hair, an old Federal soldier and a pensioner, is quite sick at his home, on Big branch. The nature of his illness is not known to the writer, but suffice it he is in a helpless condition.

Uncle Josh Wheeler's wife died Sunday morning at the Widow Nell's, near Maytown, and was buried Monday. For some reason he was not notified of the death until after the burial. She was his second wife.

Osa Long, who was pounded Monday night, requests us to thank the people of Hazel Green for their generous donation on that occasion and his father, F. M. Long, is also especially grateful. He says he never knew that so much of the milk of human kindness was to be found in any community.

An Enterprising Firm.

This issue of THE HERALD contains a large advertisement of Cecil Bros.' store, which will begin a clearance sale February 1 and carry it through the month. In the ad is a list of the prices charged, and if all country merchants would advertise in the same way, giving prices, the mail order houses would soon be knocked out with their own ammunition. If mail order houses can afford to spend thousands of dollars in advertising their wares and prices surely the home merchants can afford to spend from \$25 to \$100 each for the same cause. Our merchants should seriously consider this matter and act upon it. If every merchant in the surrounding country would take space in this paper and change his ad once a month, each time giving a list of prices, he would soon realize that his trade was improving and at the same time know that the mail order houses were not doing such a volume of business. Ask us for rates.

Wolfe Circuit Court.

Following is a list of the grand jury at the present term of court: Steve Rose, Foreman; W. B. Culbertson, James Neff, Porter Lacy, S. R. Perkins, Frank Johnson, Henry Nickell, Shelby Canoy, S. W. Bohannon, Dennie Collins, Owen Coldiron and George Buchanan. After finding 14 indictments, they adjourned Tuesday morning at 10 o'clock.

In the case of Rolly Cecil, charged with killing Geo. Burckham, there was a hung jury, they standing six for acquittal and six for conviction.

Will Handy, charged with breaking into the store of the Hoy Crawford, was sent to the penitentiary for one year.

The trial of Lige Blankenship, indicted for seduction, was continued to next term, second week. The case of Whisman, charged with the murder of Profit, was on trial yesterday.

Death of Mrs. Center.

Mrs. Zerilda Center, wife of Clayton Center, of Lacy creek, died Thursday night last of puerperal fever. She leaves four children, the youngest only about 48 hours old. About a month ago she had a fall and from that day until her demise she was never fully herself. Indeed, she said she knew she would never again be well, and picked out her burial place. Her's was a very sad death on account of the young children. His brother, Porter Center, recently married, we understand will keep house for Clayton and care for his little ones.

New Seed Corn.

Capt. Jack Rittenhouse has introduced a white seed corn here that every farmer should try. It has a very small cob and large grain, and is especially adapted to thin land. John Bedford, of Clark county, last year bought two bushels at Savannah, Ga., and he and his brother last year produced 925 bushels from the two bushels of seed. The man from whom he purchased the seed first sent for a sample of that grown in Kentucky, and, after seeing it, ordered 600 bushels, for which he paid \$2.50 per bushel. They claim that any of our good land will produce two ears to the stalk.

Has Read It Many Years.

Malone, Ky., Jan. 19, 1910. Spencer Cooper, Editor HAZEL GREEN HERALD. Dear Sir: Please find enclosed a one dollar bill for which please extend my subscription to the end of one more year. As I am now nearly 84 years old I still want to read THE HERALD after reading it for many years. I hope the many readers of the good old HERALD will excuse me if I offer a few thoughts and ask a few questions as I am an old Democrat and have voted for every Democratic nominee for president of the United States from 1848 to the present—three times for Bryan, and yet we need more silver dollars. Our state is now nearly two million dollars in debt and while people boast of our wealth I don't know the amount of our national debt and how much gold we are paying England as interest on our bonds. If a man pays tax on a large amount of property and don't know how much he is in debt he might not be as rich as he thought he was. So wishing a long life and success to you and your better seven-eighths, I am as ever yours, J. W. STEELE.

A Safe Institution.

The Hazel Green Bank has a new advertisement in this issue of our paper to which your attention is directed. It gives a list of the stockholders, after reading which all depositors must feel that it is a safe institution. As a further evidence of its solidity Cashier Patton says that for the last six months of 1909 the bank paid all expenses, declared a semi-annual dividend of 3% and made \$100 a month clear. We doubt if any similar institution in the state with no greater capital can show any better.

Liberal Terms.

I am representing the largest retail clothiers in the world and am prepared to dress smart men in the most fascinating manner, in the latest popular style, and on easy payments. Call on or write and I will serve you at the earliest date. BURNS ELAM, Agent, Box 31, Hazel Green, Ky.

Gon Dyer, of Jackson, a brother of George P. Dyer, of our town, was the latter's guest from Friday until Monday. He is negotiating the purchase of his brother's house and lot here in town, and said he would be back this week to close the deal. Should he come he will open a barber shop, as he is also a barber by trade.

Walter Henry, after spending a few weeks with friends and relatives at Campton, is sojourning in Hazel Green, a guest of the Day House. He contemplates taking a course in book-keeping at the business department of the Hazel Green Academy, and all of his friends hope he will matriculate at once.

The H. Krish Co., (inc.) wholesale dry goods and notions, Catlettsburg, Ky., has an ad in this issue, to which the attention of our merchants is earnestly directed. If wholesale houses can afford to advertise in local papers, how much more important is it that retailers should do the same.

The following is a list of registers at the Day House: E. Faller, Lexington; Wm. Atkinson, Richmond; and J. M. Bush, Ashland. The latter was a passenger in the recent wreck on the Ohio & Kentucky railway, but escaped without injury.

Charley Sublett, of Salyersville, ex-senator from this district, was a guest of the Day House Monday and Monday night. He is paymaster for the Cumberland Pipe Line Co., and was here to settle claims against the company.

Osa Long, who had his house burned a few weeks ago, at which time he lost all his meat, received a pounding Monday night, nearly all of our citizens contributing something in the way ofables.

KENTUCKY KERNELS

Carefully Collated and Concisely Chronicled.

The Clark county board of tax supervisors finished their work last week and it is estimated that the total assessment will be about \$400,000 more than last year.

B. A. Carter, who was elected county judge of Carter county last November, has resigned, and it is reported that George Wilhoit will be appointed to the place.

A man in Paris was last week fined \$8.50 for not paying his dog tax. This is the first of 150 cases which the outgoing sheriff has brought for the same reason.

Clara Henton, aged 22, of Catlettsburg, who recently attempted suicide by the morphine route, was rescued by the prompt arrival of a physician and a stomach pump.

At Pineville James White, a young negro, was found guilty of having committed a criminal assault on Mossie Woodward, a white woman, and was given a death sentence.

Newton Ford, aged 23, was last week found frozen to death in a creek near Tompkinsville. A friend of Ford's, named Charley Key, was found unconscious but was revived after heroic treatment.

Mrs. Elizabeth Smith, of Adair county, while passing through a field to visit her brother, was attacked by a vicious sheep and butted to death. She had been dead several hours when found and the body was terribly mutilated.

Jack Prewitt, charged with the killing of Conductor Frank Blevins, of the O. & B. S. railway, was acquitted in Boyd Circuit court last week. The case against Alf Prewitt, his father, who was also indicted on the same charge, was continued.

Typhoid fever, la grippe and pneumonia, in almost epidemic form, is reported in sections of Nicholas and adjoining counties. In some instances four or five members of a family are afflicted with one or the other of the diseases.

The postoffice at Paris was entered by burglars last Thursday night and after blowing off the lock from the safe were frightened away. The cash drawer had been broken open and about \$25 in money and \$10 worth of stamps taken. The contents of the safe were unmolested.

Dr. W. L. Nuttall, of Henry county, former superintendent of the institute for feeble-minded in Frankfort, who was charged with detaining an inmate, was brought back from Mexico and tried on a lunacy charge. He was sent to Lakeside asylum, the doctors having diagnosed his case as paresis.

There were organized in Kentucky during the last two years 37 new banks, 10 during the year 1908 and 27 during the year 1909, making now a total of 481 banks in Kentucky. During the last two years eight banks have liquidated or merged with other banks, and there have been three failures, these having closed their doors or suspended business.

The big timber wolf which has appeared periodically in Christian county for the past four years, and has annually caused a considerable loss to the farmers of that section by killing sheep and lambs, was killed last week by hunters who were out for that purpose. He weighed 50 pounds and measured four feet from tip to tip and stood two feet high.

The report of Postmaster Hall, of Mt. Sterling, for the recent years show that it cost the government \$5,192.62 to deliver the mail to the farmers by the rural routes while the receipts from the six routes show \$1,074.34 for stamps, making a net loss to the government of \$4,085.28, and yet there are some farmers who think the government is doing them a favor by delivering the mails to their own door.

Dr. J. M. Andrew, of Wingo, received a nice and appreciated New Year's present in the shape of a check for \$800. This amount was for ginseng, which the doctor raised in his garden and shipped away recently. Dr. Andrew planted the ginseng in a portion of his garden as an experiment and is now thoroughly satisfied that it pays to raise it. He planted the seed four years ago and is just now reaping the reward of his crop. —Hopkinsville Kentuckian.

Headache For Years

"I keep Dr. Miles' Anti-Pain Pills on hand all the time, and would not think of taking a journey without them, no matter how short a distance I am going. I have a sister that has had terrible headaches for years, and I coaxed her to try them and they helped her so much, she now keeps them by her all the time. From my own experience I cannot praise them enough."

MRS. LOU M. CHURCHILL,
63 High St., Penacook, N. H.

Many persons have headache after any little excitement or exertion. They cannot attend church, lectures, entertainments, or ride on trains without suffering. Those who suffer in this way should try Dr. Miles' Anti-Pain Pills. They give almost instant relief without leaving any disagreeable after-effects, as they do not derange the stomach or bowels; just a pleasurable sense of relief follows their use. Get a package from your druggist. Take it according to directions, and if it does not benefit he will return your money.

TO OLD KENTUCKY.

[New York Sun.]

Read on "Kentucky Night" at the Hungry Club, New York.

Here's a health to Old Kentucky,
Where the simple life still gives
Its lazy, listless rapture
To the soul that truly lives,
And dispenses creature comforts
To the mortal here below
In a satisfying manner
That the strenuous never know.

Here's a health to Old Kentucky,
Where the hospitable mind
Is bent on doing something
Of the good old-fashioned kind
For every man and woman
Who is stranger or is friend,
With a warm and open welcome
Which continues to the end.

Here's a health to Old Kentucky,
Where the women are as fair
As the pink and white sun kisses
That the rose and lily wear,
And we dream of love and music,
Of the moonlight and the flowers
That have touched the earth with beauty
In that lotus land of ours.

Here's a health to Old Kentucky,
Where the amber Bourbon glows
In the clinking crystal glasses
As the horn of plenty flows
In a golden stream of glory
Bearing over on its breast
The weary soul and body
To a topos tinted rest.

Here's a health to Old Kentucky,
Where the horse is king, and stands
The model and the master
Of his kind in other lands,
And his hoof beats strike the measure
Of the music that is known
To the simplest child of freedom
And the ruler on the throne.

Here's a health to Old Kentucky,
Where the blue grass grows knee deep
And the cattle in her pastures
Show the virtues of their keep;
Where the broad tobacco acres
Raise the sweet, narcotic weed
That solaces the millions
In a world of strife and greed.

Here's a health to Old Kentucky,
Where the fathers through the years
Hand down the courtly graces
To the sons of cavaliers;
Where the golden age is regnant
And each succeeding morn
Finds "the corn is full of kernels
And the Colonels full of corn."

Here's a health to Old Kentucky,
To her sons and daughters here
Who think of Old Kentucky
With a smile and with a tear.
They may talk of modern progress
As the proper creed to hold,
But their hearts will beat the fondest
For Kentucky that is old.

\$100 REWARD! \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

CENSUS ENUMERATORS' RATES OF PAY.

Director Durand Establishes a Classification of the Compensation of Census Takers.

The enumerators in the thinly inhabited country sections of North Dakota, South Dakota, Nebraska, and Kansas also will be compensated on a per diem basis. Certain difficult or sparsely settled enumeration districts in other states will be included among those to which the per diem rates will apply, as the conditions of the enumeration will be such that an enumerator could not make fair earnings at any of the per capita rates established.

This announcement was made by Census Director Durand, in order to counteract the deterrent effect upon applications for enumerators' places in the far west and southwest states of the widely circulated and erroneous statement that per capita rates of pay were to be given in the sparsely populated regions named.

In this connection the Director has issued to the census supervisors a detailed statement of the classification of rates adopted for compensation of enumerators in the Thirteenth Census, commencing April 15 next.

There are three general rates—the per capita, the mixed and the per diem.

The first and second general rates have five subdivisions each. The per diem rates range from \$3 to \$5.50, \$4, \$4.50, \$5, \$5.50, and \$6, and are to be paid for a day of eight hours' work.

For enumerators on the per capita basis, which will be that most widely used, the pay for each inhabitant is: Class A, 2 cents; class B, 2 1/2 cents; class C, 3 cents; class D, 3 1/2 cents; and class E, 4 cents. Such enumerators will also be paid for each farm as follows: Class A, 20 cents; class B, 22 1/2 cents; class C, 25 cents; class D, 27 1/2 cents; and class E, 30 cents. These rates are

in each case 5 cents or more higher than those paid in 1900, when the range was from 15 to 20 cents. For each establishment of productive industry the rate for each class is 80 cents. For each barn and enclosure containing live stock, not on farms, the pay is 10 cents for each class.

Under the mixed rate, which is a combination of the per capita and the per diem, there are five subclasses alphabetically arranged, and the per diem is: Class F, \$1; G, \$1.25; H, \$1.50; I, \$1.75; and J, \$2. For each inhabitant the pay is: Class F, 2 cents; G, 2 1/2 cents; H, 2 1/2 cents; I, 2 1/2 cents; and J, 3 cents. For each farm: Class F, 15 cents; G, 17 1/2 cents; H, 17 1/2 cents; I and J, 20 cents each. For each establishment of productive industry the rate is 20 cents each class.

THE EDITOR'S REPLY

It Got to the Wrong Man, Who Reported the Result.

"A temperance lecturer once came to Virginia City," said Mark Twain, "and in his lecture he cited the case of a young Nevada who had died from the effects of a half pint of brandy."

"The case was a well known one, but it had been a pint of whisky, not a half pint of brandy, that had killed the youth, and consequently I as 'Answers to Correspondents' man on the Enterprise wasn't astonished when I got this letter the day after the lecture."

"To settle a bet please state in your valuable paper whether the young man referred to in last night's temperance lecture drank half pint of brandy or a pint of whisky. Constant Reader."

"My reply to this was: 'Constant Reader.—A pint of whisky.'"

"The reply appeared, as was our rule, the week after its receipt, but meanwhile a school teacher had written in for a cold cure. The school teacher, too, had adopted the signature of 'Constant Reader,' and mistook our other correspondent's for his own. Luckily, though, he had a good constitution, and the next day he wrote to us: 'Dear Editor.—Thanks for valuable cure. It worked splendidly. The cold is completely gone now, and nothing remains but a bad headache from the pint of whisky. Constant Reader.'"

The busiest and mightiest little thing that ever was made is Chamberlain's Stomach and Liver Tablets. They do the work whenever you require their aid. These tablets change weakness into strength, listlessness into energy, gloominess into joyousness. Their action is so gentle one don't realize they have taken a purgative. Sold by all dealers.

Stale Tobacco.

Many housewives are annoyed at going through the rooms in the early morning to find the air heavy with the of stale tobacco smoke, bravely as one may assure one's husband and his friends that she does not mind at all having them smoke in her parlor, and then tries to smile so her husband will not know of the pious fraud. By taking a simple precaution the husband and his guests may enjoy their cigar in any part of the house without offending milady's dainty nostrils the next morning. Just before going to bed place a large bowl of fresh cold water in the room in which the smoking was done, and see that all the tobacco ashes and cigar ends have been removed, or, better still, burned at once.

In the morning all the odor of stale smoke will be gone—completely absorbed by the water—and the air will have been freed from other impurities. A large bowl of fresh water will change the condition of the atmosphere in any room if left there for an hour or so, and this fact should prove in a practical way the folly of allowing drinking water to stand for any length of time uncovered.

A Wretched Mistake

to endure the itching, painful distress of piles. There's no need to. Listen! "I suffered much from piles," writes Will A. Marsh, of Siler City, N. C., "till I got a box of Bucklen's Arnica Salve, and was soon cured." Burns, boils, ulcers, fever sores, eczema, cuts, chapped hands, chilblains, vanish before it. 25c at all dealers.
